

3. First-time Use

1. After placing the box in position, first open the electronic panel battery cover (the keyhole is inside the battery compartment). Insert the key into the keyhole and turn it counterclockwise, then turn the handle clockwise to open the door. Install four AA batteries into the battery compartment on the electronic panel.

4. Password Setup

1. Open the box door, press the setup button on the back of the box door and the yellow light on the electronic panel will illuminate twice while you hear a "beep" sound. The yellow light will stay on continuously. Then, enter 3-d digit password and press "*" or "0" to confirm. The yellow light will illuminate twice, and the buzzer will sound twice, indicating that the setting is successful.
2. The factory default password for this product is "666". To ensure security, please reset your personal password before using it.

5. Door Opening and Closing Operations

Enter the correct password, and after entering the password, press "Y" or "A" to confirm. If you hear two "beeps" and the green light illuminates, it indicates successful entry. Rotate the handle to open the box door. If the yellow light flashes and you hear three "beeps," it means the password entered is incorrect, and you need to input the correct password again.

6. Emergency Opening

F there is a malfunction in the electronic system or if you forget the password, please use the spare key to open the door. The method of opening is the same as the first time.

7. Alarm Instructions

F If three consecutive incorrect passwords are entered, the system will trigger an alarm, and the electronic panel will lock for 20 seconds, during which the electronic panel cannot be operated. If three consecutive incorrect passwords are entered again, the system will trigger an alarm, and the electronic panel will lock for 5 minutes, during which the electronic panel cannot be operated.

L Low Battery Voltage Warning

If the battery voltage is low, a red indicator light on the electronic panel will illuminate, reminding you to replace the batteries.

8. Installation Instructions

For the sake of safety, please be sure to fix the cabinet on a solid concrete wall.
