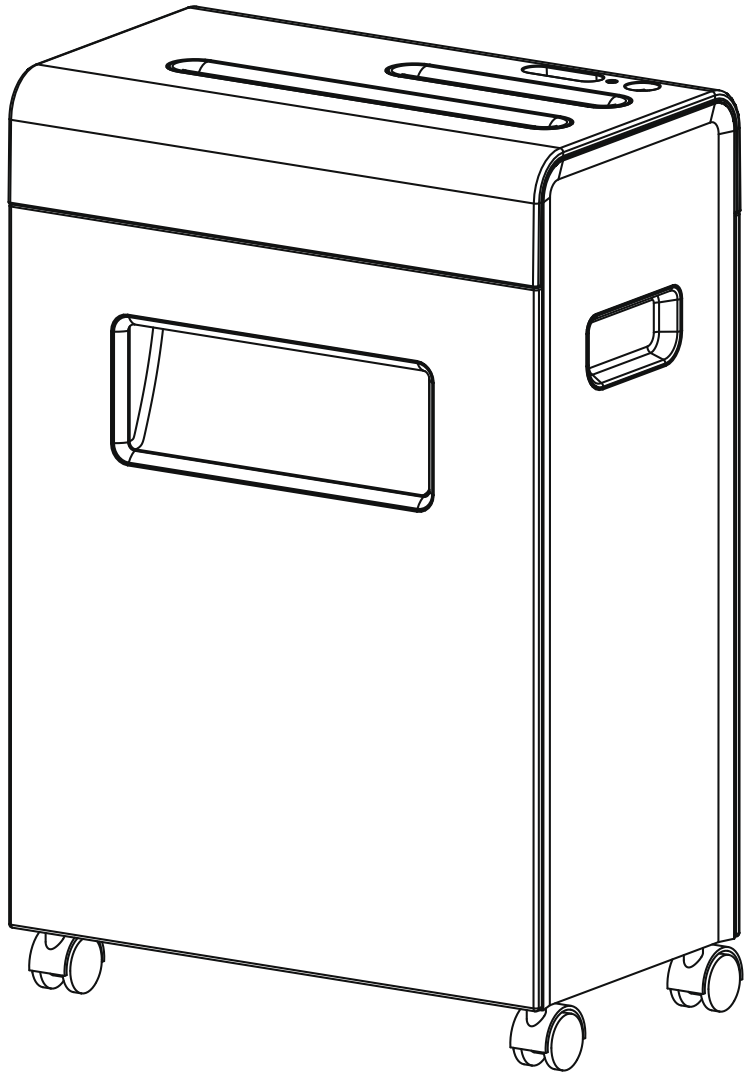
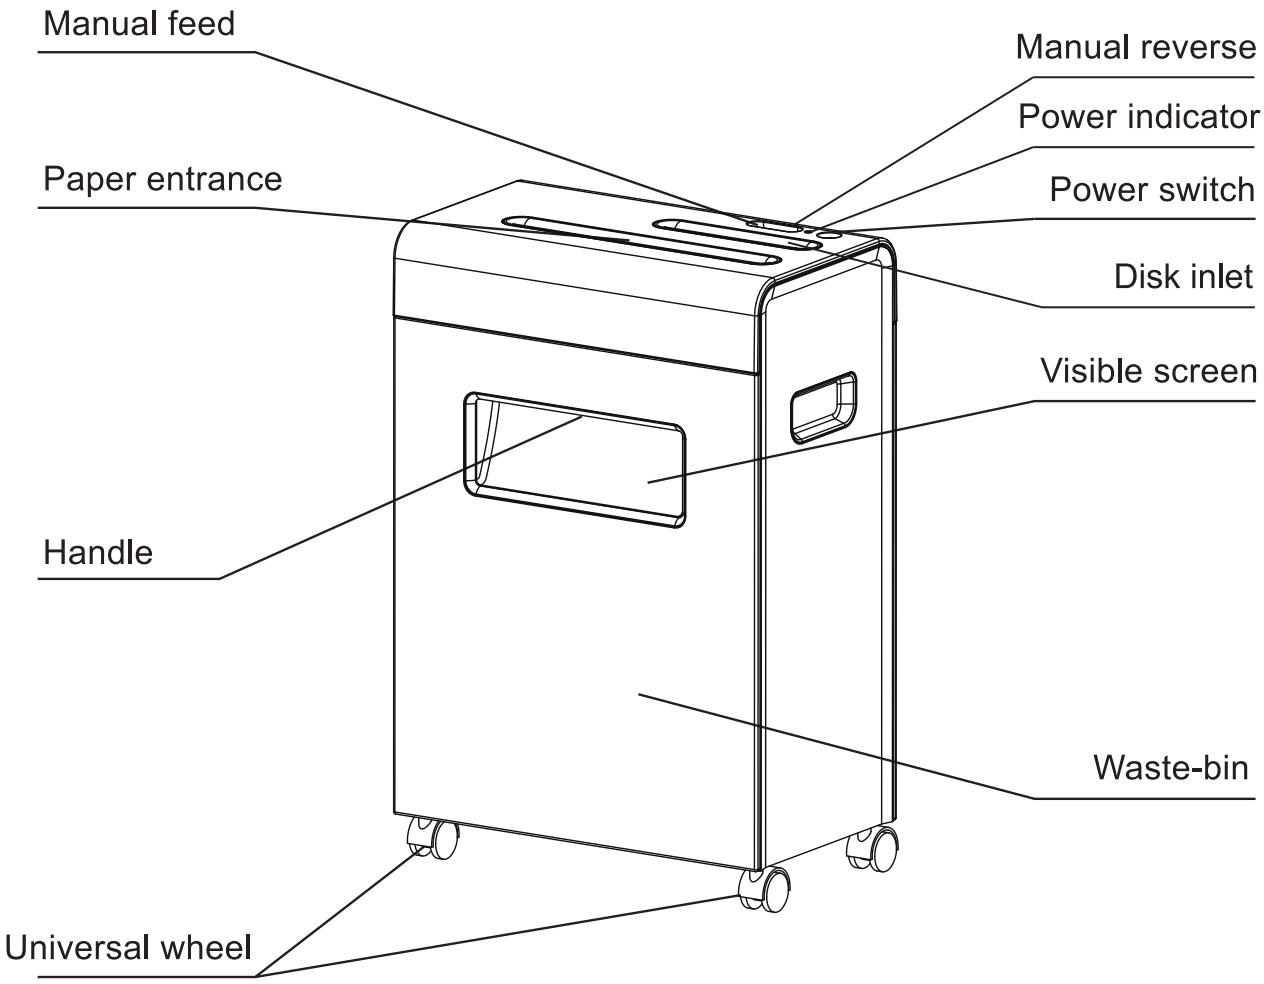
PAPER SHREDDER USER'S MANUAL



MODEL:9901.9902.9903.9911

Product Outlook & Names



Operating Procedures

1. Connect the power cable & plug.
2. Press the power button " ⏻ " and the indicator light turns green so that you can start to shred the papers or disks. Once shredding is finished, the machine would automatically switch to standby mode and wait for the next time shredding. If you are done with it, please press the power button " ⏻ " again to turn off the machine.
3. When you want to stop the operation of shredding paper, you can press "REV" button for sending out them.
4. If the papers to be shredded reverse due to too many together, the machine would pull out of the jammed papers automatically and shut off. If the machine fails to unwind the papers, please press the "Backward" button manually to pull out of the papers. When the jammed papers are too short to pull out by hands, please press the "Forward" button and "Power/Auto" button alternately to shred the jammed papers.
5. When the inside temperature is too high after continuous working, there is an overheat protection for the motor to shut off automatically at this time.Let the shredder cool down for 60minutes before operating again. The shredder is intended for mormal temperature and is used continuously for 10 minutes.
